Frontend Developer
Harifly Technologies Pvt. Ltd

09/2025 – Present
delhi

- Worked as a **Full-Time Frontend Developer**, delivering responsive and high-quality web applications
- Developed and maintained dynamic web pages using HTML, CSS, JavaScript, and React.js
- Built reusable, scalable, and user-friendly UI components
- Identified and resolved frontend issues, improving performance and user experience
- Collaborated with cross-functional teams using Git and GitHub to ensure timely delivery

PROJECTS

Star Clinic

Developed a scalable Doctor-Patient eCommerce platform enabling appointment booking, medical product purchases, and health record management. Built responsive and user-friendly interfaces using React.js, Tailwind CSS, and React Hook Form.

Key Responsibilities:

- Created interactive pages for doctor listings, appointments, and product catalog using React.js
- Integrated REST APIs for real-time data (doctor availability, products, patient details)
- Developed dynamic forms for registration, feedback, and checkout
- Collaborated with backend team and handled validations & error states
- Built reusable UI components to improve development efficiency
- Ensured responsive and accessible design across devices

Kanno Health Care

Developed Kanno Health Care website focused on kidney care services

- Built responsive and user-friendly UI using React.js and Tailwind CSS
- Implemented appointment booking functionality
- Ensured smooth navigation and optimized user experience

SKG Enterprise

Developed and deployed a fully responsive business website for SKG Enterprise, focusing on modern UI design and seamless user experience. The project involved structuring clean layouts, optimizing performance, and ensuring cross-device compatibility. Implemented intuitive navigation and visually appealing sections to effectively showcase the company's services and strengthen its online presence.

PNSD Infection"

Developed and deployed a responsive educational website for PNSD, designed to manage and present academic information, staff details, and institutional content. The project focused on creating a clean and user-friendly interface, structured navigation, and optimized performance to ensure accessibility across multiple devices. Implemented dynamic sections for teacher profiles, contact information, and announcements to enhance user engagement and digital presence.

EDUCATION

B.Sc-IT
